

Compact & Portable Quick Charge

GP-M220RF

Portable mobile receipt printer

Widely Used in Various Industries

USB + Bluetooth Dual-Mode Connection

Supports both USB and Bluetooth connections for flexible pairing.

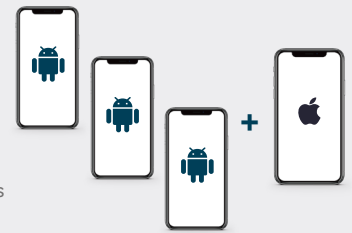

Compatible with Android, iOS, and Windows systems.

Connect Multiple Devices with Ease

Supports simultaneous connection of up to 3 devices.

Switch freely between different devices without repeated pairing.

High-Speed Printing with Thermal Protection

Printing speed up to 70 mm/s for efficient output.

Optimized thermal control ensures smooth, safe, and stable performance during continuous use.

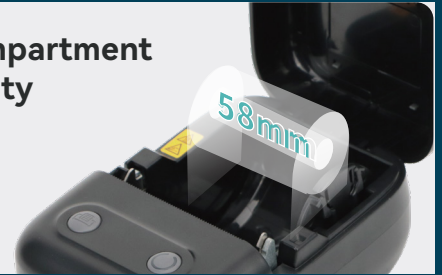

70mm/s

Large Paper Compartment for More Flexibility

Supports 58mm paper width.

Large roll support up to 50mm for uninterrupted printing.

Compact Lightweight & Portable

Weighs only 265g.

Ergonomic one-hand grip design.

Easy to carry with you—print anytime, anywhere.

Long-Lasting Battery Performance

1500mAh

Built-in 1500mAh high-capacity lithium battery.

Supports extended printing with fewer recharges.

Versatile Functions, Beyond Your Expectations

Supports Multiple Printing Contents

Supports text, images, QR codes, barcodes, and more.

One-click printing meets diverse industry needs.

Thermal Printing Easy Operation

Inkless and toner-free for cleaner, more efficient printing.

Simple setup—load paper and start printing instantly.

Developer-Friendly SDK Support

Complete SDK for custom development and system integration.
